3. Policies and procedures related to sexual assault: Bill Stackman
4. Women in Senior Leadership Roles at Notre Dame: Laura Carlson

This issue was discussed last year, with the notation that it should be a highlighted topic for the 2013-2014 year. Last year's committee identified the following questions of interest:

- How many women occupy leadership positions and what can we do to encourage more women to become involved?
- What empirical data exists on the reasons women do/do not participate in significant service and/or leadership roles on campus?
- Are there institutional and/or infrastructure issues that prevent women from taking on leadership roles?
- How does the context of a Catholic university shape the opportunities for women to take on leadership roles?
