** Created with a gift from Notre Dame Trustee John A. Kaneb, this award demonstrated the full extent of teaching excellence at the University. The Kaneb Awards were apportioned among faculty of the College of Arts and Letters, Mendoza College of Business, College of Engineering, College of Science, and School of Architecture. Each academic unit established its own criteria for the awards, but all included student input, such as the results of students' teacher course evaluations. Because the intent was to recognize teaching excellence that had been demonstrated over time, the awards were given to faculty who have been active full time in undergraduate teaching for at least five years.*
