## 2023 RESEARCH ACHIEVEMENT AWARD

The Research Achievement Award honors a distinguished faculty member who has made significant contributions to scholarship in his or her discipline and to the research and graduate education goals of the University. A member of the Notre Dame faculty since 2007, William N. Evans has built an exceptional legacy of impact and influence. He has made significant contributions to the field of economics, particularly in the areas of labor, education, public finance, and health economics. He has advanced our understanding of a wide range of issues central to our everyday lives, including educational attainment, improved labor market outcomes, reduced health disparities, and the impact of policy. In addition to his prolific research, his citation count places him in the top 1% of living economists. He is a research associate of the National Bureau of Economic Research and a faculty fellow at the Kellogg Institute for International Studies and the Institute for Educational Initiatives. He has been a builder at Notre Dame—helping to grow his relatively new department as chair and co-founding the Wilson Sheehan Lab for Economic Opportunities, a research center focused on evidenced-based solutions to poverty.

The University of Notre Dame is proud to present the 2023 Research Achievement Award to

**William N. Evans**

*Keough-Hesburgh Professor of Economics*
